

Concentration Review Game

Print the concentration squares provided in Appendix 6 Recreation. Arrange the squares print side down in a square on the floor. Divide the tribe into two teams. Have one member from a team select two squares. If the squares match, the team gets a point and the squares are removed. Have a member from the second team select two squares. If the squares match, the second team gets a point. Continue alternating teams and team members until all matches have been made. Team with most points wins.
