

## Craft: “Helping Hands Bookends”

Purchase 1”x 6” x 6’ pine wood and cut into two 6” and one 12” pieces for each bookend. Purchase #8x2” wood screws and 1/8” drill bit. Drill two holes along the bottom edge of two 6” boards to be used as the sides of the bookends. Place one end piece on the end of the 12” bottom piece and drill through the end piece hole into the bottom piece. Put wood glue on the bottom edge, place the side piece against the bottom piece and secure side with two wood screws. Do again for the opposite side.

Print onto cardstock paper the “Helping Hands” bookends cover using the print sheet provided with this craft. Cut out the helping hands and glue one to the outside of each of the bookends.
