

### **Craft: “No Pouting Fan”**

Purchase wooden  $\frac{1}{2}$ "x4' dowels or  $\frac{1}{4}$ "x6' plank at home improvement store and cut into 12" strips. Print on card stock the “No Pouting” sign using the printout page in Appendix 8 Craft. Have the members write their initials on the sign and cut it out. Then glue or staple the sign to the dowel strip. This makes a small hand fan.
